*"I was directed to the Energy News Network and told that's the resource to look at to get the lay of the land. **It's the first resource I go to** when I'm looking for energy information."*

ENN's readers are **on the front lines** of the clean energy transition.

- **25%** work for an energy business
 - **14%** work for policy or advocacy organizations
 - **7%** work in government or regulatory jobs
 - **6%** are in media or communications
 - **4%** are in academia
-
- **71%** say ENN newsletters are their primary source of regional energy news

*“Generally speaking, there is little understanding of energy systems and the economics surrounding them. ENN does a remarkable job in covering that space. **Other reporters follow ENN’s work and take lead from it.**”*

Introducing our new weekly newsletter

Thanks to input from so many of you, we've created Energy News Weekly, an email newsletter breaking down the biggest national clean energy stories of the week. Starting Sept. 21, it will arrive in your inbox every Wednesday morning. [Sign up to receive our first edition here.](#)

AFFORDABILITY:

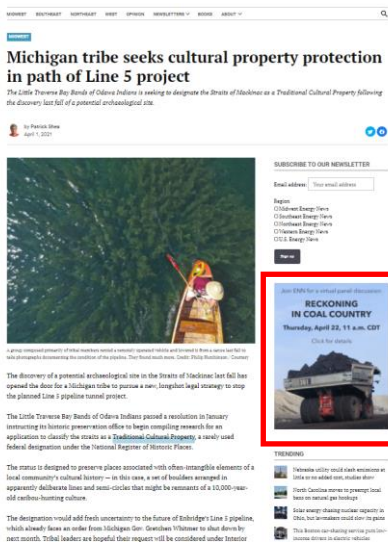

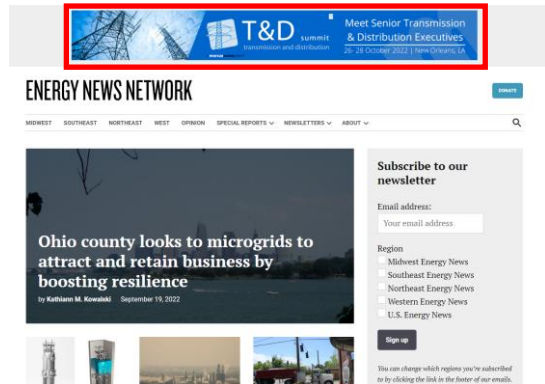

- New legislation will allow New Hampshire residents to [potentially seek several hundred dollars worth of power and fuel funds](#) if they make between 60-75% of the state's median income. (*NHPR*)
- Some ratepayers [fear an increase in homelessness](#) if Rhode Island Energy is granted its power bill rate hike request of almost 50%. (*Boston Globe*)

PIPELINES: In Pennsylvania, a Catholic order is seeking damages stemming from Transco's development of its Atlantic Sunrise gas pipeline on their land, claiming a [violation of their](#)

Condition of Message: Underwriting placement on Energy News Network is solely a gesture of appreciation for the underwriter's support, not a guarantee or promise of performance. All underwriting messages are subject to approval prior to running on Energy News Network. Underwriting must be used in a manner that is descriptive in nature only. On a first come, first serve basis, Energy News Network may accept a limited amount of sales advertising and political campaign and/or advocacy messaging: issue messages must stick to the issue and may not be directed at a political figure. Energy News Network reserves the right to decline any underwriting material.
